**TEQIP-II**  
**INVITED LECTURE ON**  
**“ENTREPRENEURSHIP DEVELOPMENT”**

Chemical Engineering Department is organizing a Invited Lecture on 1 September 2016 from 11:00 AM onwards at Conference Room in the Department of Chemical Engineering, Faculty of Engineering & Technology, Mahatma Jyotiba Phule Rohilkhand University, Bareilly. The lecture will be delivered by Prof. P. K Mishra I.I.T B.H.U, Varanasi

Entrepreneurship is the dynamic process of creating incremental wealth. The wealth is created by individuals who assume the major risks in terms of equity, time and/or career commitment or provide value for some product or service.

Entrepreneurship is the active process of recognising an economic demand in an economy, and supplying the factors of production (land, labour and capital) to satisfy that demand, usually to generate a profit. High levels of poverty combined with slow economic growth in the formal sector have forced a large part of the developing world's population into self-employment and informal activities.

After the lecture by Prof. P.K. Mishra, Prof. Surendra Pal Singh, Independent Director of B.L. Agro Oils Ltd will give an overview of his organization.

**Date & Time: 1 September 2016 from 11:00AM onwards**
