

Achievements of the Department

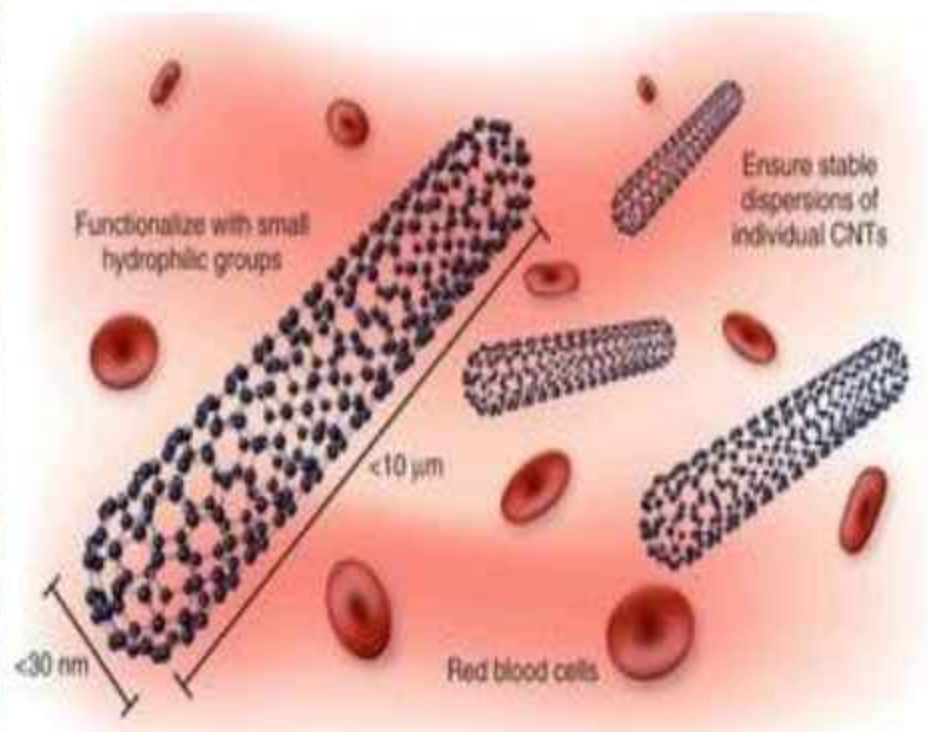

Since its establishment, the Department of Applied Mathematics has made countless achievements over the years including the following major highlights:

Research Projects

There are two ongoing Research projects in the Department for which the Department has received 5.09 lakhs (3 lakhs + 2.9 lakhs) grant from U.P. State Govt. under the Research and Development Scheme by G.O. 47/2021/606/सत्तर-4-2021-4 (56) /2020 and G.O. 39/2024/242/□□□□□ -4-2024-001-4 (33) /2023.

a) Research Project under the supervision of Prof. Madan Lal

The title of the project is "A comprehensive analysis of blood based carbon nano tubes under magneto hydrodynamics" and its duration is 3 years i.e. 2021-24.

The objectives of the approved project are as follows:

- 1) Thermal analysis of blood based CNTS and comparison with other work.
- 2) Study of velocity profile of nanoparticles as a function of volume fraction of nanoparticles.
- 3) Study of trajectory of nanoparticles in blood.
- 4) Study of Brownian motion of nanoparticles in blood.
- 5) Effect of slip under MHD in blood based CNTS.

Prof. Madan Lal, Head of the Department is Principal Investigator of the project and Dr. Rakesh Kumar, Professor, Hindu College, Moradabad is Co-Principal Investigator.

मैग्नेट थेरेपी : नहीं झड़ेंगे कैंसर रोगियों के बाल, त्वचा भी नहीं पड़ेगी काली

रुहेलखंड विश्वविद्यालय के एप्लाइड मैग् विभाग ने शोध के बाद ईजाद की मैग्नेट थेरेपी

सुनील कुमार

कैंसर रोगियों के जीवन में सबसे बड़ा चुनौती के त बाल झड़ने और त्वचा काली पड़ने। रुहेलखंड विश्वविद्यालय के एप्लाइड मैग् विभाग के अध्यक्ष सुनील कुमार ने बताया कि कैंसर रोगियों के बाल झड़ने और त्वचा काली पड़ने का कारण कैंसर रोगियों के शरीर में मौजूद कैंसर कोशिकाओं की वजह से होता है। इन कोशिकाओं की वजह से शरीर में कैंसर रोगियों के बाल झड़ने और त्वचा काली पड़ने का कारण बनता है।

ये है कैंसर का आंकड़ा

कैंसर रोगियों की संख्या 2020 के मुताबिक वर्ष 2020 में लगभग 14 लाख कैंसर रोगी हैं। इन कैंसर रोगियों की संख्या में वृद्धि हो रही है। कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है। कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है। कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है।

इस तरह होता है दुष्प्रभाव

कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है। कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है। कैंसर रोगियों की संख्या में वृद्धि का कारण कैंसर रोगियों की संख्या में वृद्धि है।

b) Research Project under the supervision of Prof. Naveen Kumar

The title of the project is “Mathematical Modeling, Design, Analysis and Simulation of High Precise Control Algorithms for Robotic Systems” and its duration is 3 years i.e. 2024-27.

Organization of Symposium

The Department has organized a Symposium on “Wavelet and Its applications in Engineering Problems” during 20-21 December. The aim of the Symposium was to provide a national multidisciplinary platform for discussion and debate among health care providers, policy makers, academics, and researchers on contemporary strategies and issues in evidence-informed health care and policy formulation which was successfully achieved.

Glimpses of Symposium

Invited Talk

1) Professor Madan Lal, the esteemed Head of the Department of Applied Mathematics, showcased his expertise and knowledge at the International Conference on "Frontiers in Pure and Applied Science" held on April 5, 2024, at K.C.M.T., Bareilly. His invited talk titled "Mathematics in Action: Applications of Mathematics" captivated the audience, shedding light on the myriad ways mathematics permeates our daily lives and its crucial role in various fields. With his insightful presentation, Professor Madan Lal underscored the practical implications and real-world applications of mathematical concepts, inspiring fellow researchers and academics to delve deeper into the interdisciplinary intersections of mathematics and science.

2) On 25th May, 2024, Professor Madan Lal, the esteemed Head of the Department of Applied Mathematics, also delivered an Invited Talk on the topic "Mastering Mathematics: Strategies for Solving Question Papers" in Lotus Institute of Management, Bareilly. He captivated the audience by shedding light on the importance of solving Question paper of Mathematics and explaining methods to attain good marks.

Expert Lecture

- 1) Mr. Rajendra Dubey, Director, DIPS Academy delivered a lecture on “Mathematics In Different Disciplines” in Seminar Hall of the Applied Mathematics Department on 01st March, 2024. His mesmerizing detailing of different books combined with his expertise in the field of Mathematics captivated the attention of students. He motivated students to achieve great heights in the field of Mathematics. He also discussed the importance of CSIR-NET, GATE and other competitive examinations related to Mathematical discipline and explained different strategies to crack these National Level Exams. The Dean of Faculty of Engineering and Technology Prof. Sobhna Singh, Head of the Department, Prof. Madan Lal, other faculty members Prof. Naveen Kumar, Dr. Ram Keval, Mr. Haris Zuberi, Miss Shivangi

Verma, Miss Shrishti Saxena were also a present of this lecture.

2)Dr. Nutan Kumar Tomar, Professor, IIT Patna delivered an Expert Talk on “Functional ODE Observers for DAE Control Systems” on 01st December, 2023 in Seminar Hall of the Applied Mathematics Department. He explained the applications of Linear Algebra in Control Theory. His excellent lecture motivated students to explore the research in the field of Pure Mathematics.

रुवि के गणित विभाग में शोध छात्रों की व्याख्यान माला शुरू
